ANALYSIS OF BOOKS

PUBLISHED DURING 1918 IN THE UNITED KINGDOM.

THE PUBLISHERS' CIRCULAR AND BOOKSELLERS' RECORD records a total of 7,716 books as having been published during the year 1918. This is a decrease of 415 compared with the previous year; but when it is remembered that the period has been one of the utmost difficulty owing to the exhaustion of labour and materials and the enormously increased cost of production in the fourth and fifth years of the War, the total is one which gives striking proof of the vitality and enterprise of British publishing. The decrease is accounted for chiefly by a falling off in the number of works of Fiction (–523) and Juvenile Literature (–155); other classes that have also decreased slightly are Education, Agriculture, Domestic, Business, History, and Geography. On the other hand, Sociology has increased by 112, Technology by 110, Medicine by 80, and Poetry by 98; and there are smaller increases in Religion, Fine Arts, Literature, Military and Naval, and Description.

Viewing the general totals, it will be noted that new publications have increased by 144, while the number of new editions has dropped by 559. An extraordinary proportion of outstanding works have appeared during the year, and the automatic curtailment of production of minor books owing to the scarcity and cost of materials may not have been an unmixed evil from the literary point of view.

The total number of books published in the various classes of literature is a rough indication of the attention bestowed by the public upon them, and it is interesting to compare the order in which the principal classes appear this year and in 1914:—

1914	1918
(1) Fiction	(1) Fiction
(2) Religion	(2) Religion
(3) Science	(3) Sociology
(4) Sociology	(4) Poetry
(5) Technology	(5) History
(6) Poetry	(6) Juvenile
(7) Juvenile	(7) Medicine
(8) Description	(8) Technology
(9) Literature	(9 Military & Naval
(10) History / Medicine	(10) Science
(11) Biography	(11) Literature
(12) Military & Naval	(12) Biography

The following totals for the last ten years are also of considerable interest:—

Year.	New books.	New editions.	Total
1909	8,446	2,279	10,725
1910	8,468	2,336	10,804
1911	8,530	2,384	10,914
1912	9,197	2,870	12,067
1913	9,541	2,838	12,379
1914	8,863	2,674	11,537
1915	8,499	2,166	10,665
1916	7,537	1,612	9,149
1917	6,606	1,525	8,131
1918	**6,750**	**966**	**7,716**

It should be noted that in the following table "Education" includes only books about educational theory and practice, and not text books on special subjects, which are classed elsewhere; that under "Music" only works about music are recorded; and that books dealing generally with the European War are classed under "History," while those of a technical nature are placed under the heading "Military and Naval." It would be possible to swell the total to a much greater figure by counting numerous leaflets (Government and other), ephemeral pamphlets, the publications of borough councils and other local government bodies, and musical texts. While it is obvious that our total could be increased greatly by the inclusion of all this literary protozoa, the figures would not represent so accurately the book publishing activity of the United Kingdom.

In these tables each publication is counted as one, whether it is in one or more volumes. Serials that appear later as a collected volume are counted as an ordinary book on the appearance of that volume; so that, for example, the series of "Statutory Rules and Orders" issued by the Government, and amounting to several hundred in the year, are counted as one item on the appearance of the annual collected volume. The same rule applies to volumes of magazines, &c. Further detailed information regarding the year's publishing is supplied by the appended analytical tables.

PREFATORY NOTE

THIS eighty-second yearly issue of THE ENGLISH CATALOGUE OF BOOKS comprises the titles (under authors, and subjects or titles) of works published during 1918, and also of some received too late for inclusion in the eighty-first issue.

The main entry for each book begins with the author's surname (if known) in **heavy type.** As an index to these "Author" records, entries are also made under the titles, commencing with their most important words (which usually indicate the *subjects* with which the books deal), or with the first words; the name or word under which the main entry appears is printed in *italics* in these index entries, thus giving a reference to the place where the full information about a book may be found. Main entries and index entries are in one alphabet.

Writers with compound names are entered under the first part of the name, *e.g.*:—

Baring-Gould (Sabine)

and accordingly must be looked for in that order. References are also made, however, from the last part of the name.

The publications of learned Societies are recorded in an Appendix.

The names and addresses of the Publishers of Great Britain and Ireland, followed by those of the principal publishers in the United States and Canada, will be found at the end of the volume. The telegraphic and cable addresses and telephone numbers have been added when known.

Following the Preface is an analysis of the books of the year 1918, showing in detail the number of works in each class of literature, and giving the proportions of new books, translations, pamphlets, and new editions.

Every effort has been made to obtain the full particulars of the books noted. Special enquiries were made in every case where information was deficient; and most publishers courteously responded. In the cases where entries have been included without prices, the fault lies with the publishers concerned.

Hearty thanks are due to the many publishers, secretaries, librarians, authors and bibliographers who have assisted in making this book more correct and comprehensive than it would have been otherwise.

The Editor will be glad to have particulars (author, title, size, price, publisher, and month of publication) of any work which may have been omitted. Information regarding each book should be given on a separate slip of paper or postcard It should be addressed to *The Editor of* THE ENGLISH CATALOGUE OF BOOKS, "Publishers' Circular" Office, 19, Adam Street, Strand, London, W.C. 2.

THE EDITOR.

The Names, Addresses and Telephone Numbers of PUBLISHERS are given at the end of this volume.

THE ENGLISH CATALOGUE 1918

*** The names or words printed in *Italic* in the Index Entries are those under which the books will be found fully described in the main entries.

*** In addition to the names of book-sizes, such as cr. 8vo., royal 8vo., &c., the sizes are also given whenever possible in inches, 1 inch = 2½ centimetres.

DIRECTORY OF PUBLISHERS

Publishers are invited to send us their Telegraphic Addresses and Telephone Numbers. Those sent will be found below between square brackets [ ], and separated from each other by a semicolon (;) The Editor will be glad to be notified of any inaccuracy in the following lists for correction in subsequent volumes.

This list of Publishers, with their Addresses, has been compiled principally with a view to supplying information regarding the books in the English Catalogue. This will explain the inclusion of some firms in the list who can scarcely, in the strict acceptation of the term, be called Publishers, since the publication of books forms only an occasional part of their business.

The Novels of Nat Gould

ATHENÆUM says:—"All living writers are headed by Mr. Nat Gould, and of the great of the past Dumas only surpasses his popularity."

TRUTH says:—"Who is the most popular of living novelists? Mr. Nat Gould easily and indisputably takes the first place."

THE TIMES, July 12, 1917, in a long and appreciative review, says:—"Of Mr. Nat Gould's novels *more than Ten Million copies have been sold;* and when this can be said of an author there must be qualities in his work which appeal to human nature—qualities, therefore, which even the most superior person would do well to recognise.
